

David Clarke

Web Designer and Front End Developer

I am an experienced web and print designer with skills in front end web development. I have experience in a commercial design studio setting, managing live client projects from concept to completion.

Experience

Designer / Developer

2017 - Present

Ne-web, Gateshead, Tyne and Wear

At ne-web I'm responsible for taking design projects from concept to completion. I work closely with both local and national clients on print design and branding projects, user interface design and visual design for websites and web applications.

Graphic & Web Designer

2014 - 2017

Studio Whitby, North Yorkshire

At Studio Whitby I worked with a client account manager, freelance photographers, sign makers and various printers to offer an effective creative design and branding service to local and national businesses.

Graphic Designer

2012 - 2014

Whitby Advertiser, North Yorkshire

At the Whitby Advertiser I was responsible for the overall Graphic Design of a monthly 96 page publication. Focusing on Design for Print I produced targeted advertising for both local and national clients.

University of Hull

2010 - 2013

Bachelor of Arts (BA) Graphic Design
